SUMMARY

Recent B.Sc. Computer Science graduate with a strong foundation in Python, Django, HTML, CSS, JavaScript, API integration, and SQL. Completed internships at Luminar Technolab and Tech By Heart, gaining practical experience in full-stack web development and backend integration. Passionate about developing efficient, scalable applications and eager to contribute to innovative software projects while continuously enhancing technical skills.

SKILLS

Technical Expertise: Python, Machine Learning (Basics), MySQL, PostgreSQL, HTML, CSS

Framework/Libraries: Django,React

Collaboration Skills: Team Player, Leadership

Project Management: Event Coordination

PROJECTS

Women Security Scream Alert

Women Security App with Scream Alert", is designed to enhance personal safety for women by providing an automatic, real-time distress signaling solution.key features:-

- Real-time Sound producing
- GPS Integration
- Manual Panic Button for activating the alert

MovieCupid

Apersonalized movie recommendation platform that identifies users' favorite genres, artists, anddirectors to suggest movies tailored to their interests. It integrates external movie database TMDb tofetch details about movies, reviews, ratings, and OTT availability.

Built with a modern frontend (HTML/CSS), a robust backend (Django), and APIs for real-timemovie data,the application aims to provide a personalized dashboard with recommendations, reviews, and streaming availability. It can later be scaled with advanced machinelearning models, notifications, andmonetization options like OTT affiliate links.

WSG Site Manager

Developed a comprehensive Site Management System using Django framework.

Implemented role-based authentication for Admin, Site Incharge, and Accounts roles.

Built project tracking, daily reports, and labour management modules.

EXPERIENCE
